

Science, Technology, Engineering and Mathematics (STEM) Jobs In Demand - Florida May 2018

Help Wanted OnLine TM from The Conference Board is a measure of real-time labor demand captured through online job ads. The Conference Board compiles online job ads from over 16,000 sources and publishes the data in an online application that covers national, state, Metropolitan Statistical Area (MSA) and county levels, detailed by occupation, industry, and employer. Since the online ads are a direct indication of hiring intent by employers, they serve as a measure of labor demand. Reports of hiring demand by area, industry, occupation, and employer are a valuable tool for identifying employment opportunities and helping with the reemployment of Florida's out-of-work citizens. The Florida Department of Economic Opportunity, Bureau of Labor Market Statistics compiles and publishes reports every month from Help Wanted OnLine that show hiring demand at both the state level and the regional workforce board level.

Note: The STEM occupation list was expanded for the January 2016 HWOL data release. Historic data are provided for this new list.

Job ads for STEM occupations in Florida compiled by the Help Wanted OnLine data series totaled 70,496 (not seasonally adjusted) ads in May 2018. Over the year, STEM job ads decreased by 7,823 (-10.0 percent) compared to May 2017. Nationally, STEM demand decreased by 65,295 job ads in May 2018 compared to May 2017 (-4.0 percent).

Major occupational groups with the most online ads in May were computer and mathematical occupations; healthcare practitioners and technical occupations; architecture and engineering occupations; and business and financial operations occupations.

Online job demand for STEM was strongest in counties that are in large metro areas, led by Hillsborough County, Orange County, Miami-Dade County, Broward County, and Palm Beach County.

Top 20 Advertised STEM Occupations for Florida	Online Ads	Online Ads	
Not Seasonally Adjusted	May-2018	May-2017
